Officials with the pension system for retired Oklahoma Highway Patrol troopers and other state law enforcement officers say the FBI is investigating after computer hackers stole \$4.2 million in funds.

A notice posted on the Oklahoma Law Enforcement Retirement System website on Friday said no pension benefits of any members are at risk.

Gov. Kevin Stitt's spokeswoman Donelle Harder says the <u>theft</u> is believed to have resulted from a hack of the agency's email system, but that the investigation is ongoing. The OLERS <u>email system</u> is managed by the state Office of Management and Enterprise Services.

The theft was first reported by The Oklahoman.

The executive director of OLERS, Duane Michael, didn't immediately respond to a request by The Associated Press seeking comment.
