

# 'Grand Theft Auto' game maker says new edition in development

5 February 2022

Rockstar Games says a new installment to the 'Grand Theft Auto' franchise is in the works.

The maker of the notorious "Grand Theft Auto" video game franchise announced Friday that a new edition is under development, confirming long-bubbling speculation.

New York-based Rockstar Games did not say when "Grand Theft Auto 6" will hit the street or how it will be different from the previous edition of the game released in 2013 to blockbuster sales.

"We're pleased to confirm that active development for the next entry in the series is underway," the studio's subsidiary Take Two Interactive said in an online post.

More than 230 million copies of "Grand Theft Auto," referred to as "GTA" have been sold overall.

An online, multi-player version of the game boasts a large and devoted community of fans, some of whom took to Twitter to express delight at the news along with jibes that Rockstar might not deliver the new game for years.

One fan of the game tweeted a photo of three elderly men hunched over a video game controller, joking it would be him and friends when GTA 6 is finally available.

A tweet from the account @robertyoushock focused on Rockstar saying the new game is well underway.

"This same language was used in June 2012 in regards to GTA V," the tweet read, noting it took 14 more months for the game to launch.

The GTA franchise in which players take on the role of a criminal has been criticized for glorifying law-breaking, violence and abuse of women.

"This could be the GTA to end all GTAs!," read a tweeted reply to Rockstar from the account of self-described esports commentator and game streamer @nathanias.
